Part of History

In the heart of the Jura vineyards, where the Savagnin grape is nurtured by marl soils, a tradition endures: the crafting of vin jaune. This ancestral knowledge, mastered over the years, relies on a unique grape variety, optimally ripened grapes, extended aging in oak barrels, and the formation of a natural “veil” that allows for a controlled oxidation, contributing to the renowned “*goût de jaune*”.

The Berthet-Bondet family are passionate defenders of this expertise and of their cherished appellation, Château-Chalon, where they carefully cultivate 4.5 hectares. Established at the estate since 1984, the crafting of this wine has now become a true tradition.

Flashback

Dagueneau was the first “extravagant” bottle of wine I ever bought—a 1996 Silex.

It was ten years ago now, during my sommelier studies in Béziers. There were eight of us, broke students with empty pockets, scraping together what little we had. I remember it like it was yesterday: we sniffed the wine reverently, our eyes filled with stars, our glasses half-full.

Moments like that are etched into memory forever.

ICONIC

The true crowning jewel of the Loire Valley and nagnum opus of the legendary Didier Dagueneau, Astéroïde is a wine that very few have the privilege of experiencing. Harvested from 18 hand ploughed plots of Sauvignon Blanc in Pouilly Fumé, this elusive cuvée is only produced 3 times every decade, with up to 400 bottles being produced each vintage. With a beautiful synergy of purity and power coming from the masterful and meticulous vinification, Asteroïde showcases the very best that Sauvignon Blanc has to offer.

Château d'Yquem, "Ygrec d'Yquem"

Hailing from perhaps the most legendary and revered estate in the world for dessert wines, the Ygrec of Château d'Yquem has remained to be a true hidden jewel in the crown of Sauternes' king showcasing a synergic unison of Sauvignon Blanc and Sémillon harvested at the peak of their ripeness. The Ygrec demands the reverence often ill afforded to Bordeaux's white wines.

Clos Joliette

Jurançon conceals a rare gem: the Petit Manseng amphitheater of Clos Joliette. Planted in 1929, it was lovingly cared for by the Migne couple until their last breath. The estate then passed to Michel Renaud and, ultimately, to Lionel Osmin, who has stayed true to the distinctive Joliette style.

Flashback

My first bottle of Grillet was a fairly young vintage, enjoyed while I was cutting my teeth at Le Petit Nice. I tasted it with great care, under the watchful eye of Monsieur Mesnier, my head sommelier. With an inquisitive look, he asked me :

- *Well?*

- *Well...*

- *You'll understand later.*

In hindsight, I can only agree with my first mentor. Château-Grillet is the Sleeping Beauty of the Rhône, awakening from its slumber only when it chooses.

Castello della Sala

Cervaro della Sala from Castello della Sala is Umbria's truest and most exquisite expression and stands among Italy's most prestigious white wines. The bar is set high, but the Antinori family enjoys a challenge.

Flashbacks

In front of me, the pre-phylloxera Riesling vines stand as tall as I am, their trunks as wide as me... Walking through the rows of Scharzhofberger vines, Egon's words echo in my mind: "The quality of a wine originates from the vines."

Egon comes back from the cellar with a bottle, its label absent. He opens it carefully, concealing the cork. As he pours the liquid into our glasses, a mischievous smile plays on his lips:

"So, what vintage is it?"

Several answers fly, pointing to the late '90s or early 2000s.

Egon smiles, calmly, and softly replies: "1983."

Time seems to have no hold over Egon's wines. In retrospect, I can't help but think there must be a time glitch in his cellar.

The Alte Reben cuvée comes from the ungrafted parcels at the heart of the Scharzhofberger site, long believed to be resistant to phylloxera thanks to their unique terroir. We now know that this resilience was due largely to the cold temperatures, as some vines have recently begun to show signs of infestation and have had to be replaced. Alte Reben is unique in its fragility, and future generations will likely read about it rather than have the chance to experience its recent vintages firsthand.

Part of History

Dating back to 1789, the winery has been a symbol of tradition and craftsmanship. Today, it is run by Klaus Peter Keller, who took over its management in 2001.

The 2022 vintage was a particularly complex one, with Klaus Peter describing it as follows:

“ You can't make great wine without some anxiety; you have to be willing to take some risks. After a harvest that stretched over nearly seven weeks, the team was both relieved and proud when, on October 12th, the final box of grapes was brought into the winery”

Rest assured, the ethereal 2022 G Max is poised to endure for eternity.

Hidden amidst the plethora of Grosse Gewachs holdings of Weingut Keller, there emerges an elusive, rare and legendary cuvee, the G-Max. Shrouded in speculation and intrigue, and hailing from an undisclosed parcel of vines, the G-Max is the namesake of Klaus-Peter's own son, Maximilian, G-Max showcases profound power, poise and fortitude.

A Taste of Home

Listed not out of chauvinism, but simply for the pleasure of sharing, Alice Hartmann opened the doors to their collection of older vintages. It is a glimpse into one of the best terroirs of Luxembourg: La Chapelle on La Koeppchen.

*Wou d'Rief laanscht d'Musel dofteg bléit, den
Himmel Wäin ons mëcht.*

*Where the breeze along the moss gently
blows, The sky gives us wine.*

Part of History

In 2017, following the death of one of the Foucault brothers, ownership of Clos Rougeard underwent a significant change. This shift has undoubtedly sparked considerable debate, yet there remains a broad consensus that it continues to be a cornerstone of Loire's wine aristocracy.

“Les Poyeux” is Clos Rougeard's known for its powerful elegance has an excellent aging potential.

“Les Clos” is made from the estate's oldest vineyard, offering a more refined expression of Cabernet Franc.

Le Bourg” is Clos Rougeard's rarest cuvée, known for its complexity, it ages gracefully for decades.

Each cuvée tells its own story, yet all are written from the same book.

Flashback

During a dinner hosted by Corney & Barrow, I asked Olivier Berrouet about the most unexpected food pairing he had ever tried with a bottle of Petrus. He laughed and replied, “If I’m being honest, in Hong Kong, late at night with a friend, in front of a bowl of spicy soup. I wouldn’t recommend it.”

The whole table was in stitches and I hoped he was joking—but it turns out, he wasn’t.

From this anecdote, I realize there is no perfect moment to open a bottle of wine. Life is a series of fleeting moments, each unique yet bound to repeat in an eternal return.

Part of History

Compared to many other domaines in Burgundy, Domaine Prieuré Roch is undoubtedly one of the youngest, having been founded in 1988 by Henry-Frédéric Roch, the son of Pauline Roch and co-director of Domaine de la Romanée-Conti.

This estate stands out as unconventional, even rebellious, in its approach. It embraces biodynamic practices, vinifies with stems, adopts varied ageing periods tailored to each wine, and resolutely avoids filtration and fining. Managing only a select few vineyards, the domaine focuses exclusively on producing red wines, amplifying its distinct identity.

Bits of Book

I was recently reading *Les Millésimes de Bourgogne* by Mr. Jacky Rigaux and I found myself immersed in the Conti philosophy and their unwavering work with their terroir and in their cellars.

“If we want the vine to be able to reach these high maturations, without which there is no great wine, we must push ourselves to go further in the direction of an extreme demand for quality at all levels of the work in the vineyard and in the wine.” – J-M Duvault Blochet.

The Conti spirit, therefore, is above all: the attention given to the vintage is crucial, but the terroir is so determinant, and the hand of man is decisive.

Part of History

This domaine is renowned for its exceptional consistency. Both the red and white Hermitage are of equal quality, each crafted with the same meticulous attention.

The Cathlin cuvée, a tribute to his close friend Robert Cathelin, remains, to this day, a wine I find indescribable—one of those rare outliers that has the power to transform the way we think about the world of wine.

Chave carries nearly six centuries of responsibility on his shoulders—and, in fact, he truly does.

Cuvée Cathelin is the ultra-exclusive top cuvée from the Domaine. Produced only in exceptional vintages and in tiny quantities (around 200 cases), it is made from the estate's finest Syrah grapes and aged extensively in new French oak.

Part of History

Éloi Dürrbach, a true visionary and free spirit, transformed his terroir by using a bulldozer to break large stone blocks, creating a mosaic of pebbles over the clay-limestone foundation of his iconic Alpilles vineyard. He firmly believed in the potential of blending Cabernet Sauvignon and Syrah to craft exceptional Provençal reds, which led him to step away from the Baux-de-Provence appellation. Initially, selling his wine was a significant challenge for him, as he navigated uncharted territory.

Aubert de Villaine discovered the estate, setting off a chain reaction. Kermit Lynch tasted the wine, bought 10 cases, then 100, and introduced it to Robert Parker. Parker, in turn, found a true revelation in the heart of Les Baux de Provence, a new-found passion.

The rest, as they say, is history.

Part of History

My favorite winemaker in the Languedoc, Rémy Pédréno, has been working this 9-hectare estate since 1999 on the historic terroir of Langlade.

Honoring his Spanish roots, he has delved deep into style and heritage, reviving an old tradition: the Reserva. This is a blend of different vintages, much like the renowned Unico Reserva Especial from Vega Sicilia, after which it is affectionately named.

A humble talent.

Flashback

Tuscany—the cypress-lined roads the song of cicadas, burning sun...

It's noon, and we're having lunch at Guado al Tasso. A wine I've never tasted before is presented to us. Curious, I think, what could this wine be? I bring my nose to the glass. It's explosive. Exuberant. The fruit bites at your nose like a dog clinging to a bone. All the generosity of the estate, all the Tuscan warmth, fills the glass. On the palate, it's rich, lush, juicy—each sip a taste of sunshine and dolce vita.

San Walfredo is carpe diem spirit in a bottle. It's my wine!

Wine & Peace

Nestled in the Coastal Mountain range of Latakia, brothers Karim and Sandro Saadé produce what wine expert Jancis Robinson has called “arguably the finest wine of the Eastern Mediterranean.” Despite their vineyards being targeted during Syria’s civil war, the Saadé brothers remained resolute, continuing to craft exceptional wines amidst adversity. *A £10 donation is made to the World Food Programme for every bottle sold.*

Part of History

During the bombings of Beirut in the Lebanese Civil War, rather than taking refuge in a bomb shelter, Gaston chose to open a bottle of Musar '72 and decant it. With each explosion that echoed through the city, he would calmly take a sip of the wine. Some may craft the allure of myth, but Gaston Hochar lived it.

The masterpiece of his life, Château Musar, stands as a symbol of distinction in the world of wine, a name that commands admiration.

Nostalgia

Monte Bello provided a true “lightbulb moment” for me regarding American wines. It began a love story all beginning with a magnum of the 1996 vintage.

On a seemingly unassuming days walk and exploration of the streets of San Francisco, a quick lunch yielded a defining moment in my wine journey 5 years ago. A delightful lunch watching sunkissed scenery and the presentation of an enduring, complex and symphonic Cabernet that left me completely speechless and led to a recent visit of this flagship winery high atop the Santa Cruz mountains with breathtaking views over the San Francisco peninsula.

Steeped in memory, soaked in nostalgia and enveloped in passion, my adoration for this wine knows no bounds.

Malbec & Phylloxera

The epic journey of the noble Malbec grape is truly unparalleled, and the label of Catena Zapata Malbec Argentino beautifully honors its history in France and its flourishing in Argentina. Situated at 3,593 feet of altitude, the vineyard is planted with “The Catena Cuttings,” a pre-phylloxera massale selection from the Angelica vineyard. While phylloxera marked the demise of Malbec in the Old World, it also paved the way for its rebirth in the New World.

The 2020 vintage is a stunning expression, with a rich, voluminous flow—one of the standout wines of the year.

Flashback

Around the table, everyone's eyes are fixed on Fred as he brings up the next bottle from the cellar—an Alsatian! A ripple of excitement spreads. I squint at the label: Klevener 1976. I can't contain a gasp of delight, hoping it's a Savagnin Rosé, the holy grail!

The cork, in pristine condition, slides out, and the wine is poured. The nose is breathtaking: layers of geranium and rose, toasted almond, a touch of spice.

My god... Does anyone have a time machine we could borrow?

Flashback

I'm sitting in the BBR tasting rooms for the first Taylor's Port competition, six Ports lined up before me to taste blind. My heart is beating loud. I lift the first glass, take the first sniff... Oh. This is going to be glorious.

A month later, we're in the wine room with David Guimaraens, who speaks with a bright spark in his eyes about the great vintages, vintage Ports that touch your soul and wake your mind. Taylor's Fladgate brings its centuries of Douro Valley mastery to life in a vertical of classic years, each bottle a chapter in a story still being written.

There is a natural harmony between Taylor's Fladgate Port and British culture, and at Row on 5 that relationship comes alive. Rich, comforting, and timeless, Port is reimagined in a contemporary British setting crafted for savoring and storytelling. A heritage poured with attitude.
